[2]

In April 2013, the incredible 143 m JOIDES Resolution docked in Victoria BC and provided a fantastic opportunity for educators to join the ship.

The JOIDES regularly invites educators from around the world to participate in multiday workshops to work with real drill core materials and state-of-the-art lab technology. Participants learn how science reveals clues about the Earth's history.

For teachers interested in experiencing this amazing opportunity ? where all your shipboard costs are FREE- and for more information or to download the application form, see: <http://oceanleadership.org/education/deep-earth-academy/educators/school-of-rock/> [3].
