

## **Launching a Live Data Stream with Van Aqua and OceanWorks!**

Submitted by Virginia Keast Thu, 2015-04-23 00:17

Everyone is invited! On April 29, Ocean Networks Canada (ONC) is celebrating the unveiling of a new display at Vancouver Aquarium's Strait of Georgia tank.

OceanWorks' Richard Pomerleau and team built a model node to be installed in the Vancouver Aquarium's Strait of Georgia tank. Alongside the tank, attendees can view the live-streaming data coming from two of ONC's Strait of Georgia nodes, also built by OceanWorks - an international subsea technology company based in Vancouver. Vancouver Aquarium's participation in this creative venture is remarkable. ONC would like to thank both of these important partners for bringing ocean life and technology together to show Vancouver audiences the realtime state of the ocean, right outside their door!

?We are thrilled to be showcasing Ocean Networks Canada?s world-leading technology and demonstrating its live-streaming data in Canada?s best ocean showcase ? The Vancouver Aquarium.? Kate Moran, President & CEO, Ocean Networks Canada.

Join ONC President, Kate Moran, for an interactive talk at the launch of this exciting collaboration!

Wednesday, 29 April

6:30 p.m. (doors open at 6:00) RSVP

Vancouver Aquarium, Monsters Of The Deep: Deep Sea Creatures Off The B.C. Coast

Can't join us in person - [watch live](#) on Vancouver Aquarium's YouTube Channel
