### *Post by Allan Roberts*

Data workshops were held at the University of Victoria on June 4 and 5, 2013. Participants came from the disciplines of Biology, Geography, and Statistics, and included grad students, undergraduates, and faculty. An image from the Ocean Networks Canada SeaTube video archive, recorded by the underwater camera at the Ocean Networks Canada observatory at Brentwood College School (Mill Bay, BC) was used in examples. A brief introduction to coastline and bathymetry maps, as well as map projections were also covered.
