

## Jacobs University, Bremen <sup>[1]</sup>

Collaborating Institution

Jacobs University Bremen is a highly selective, private institution for the advancement of education and research. Its academic programs and cultural environment prepare graduates for international leadership and global citizenship. Multinational students, faculty and researchers of distinction, with educational partners around the world, collaborate in learning, creating and disseminating information and new knowledge.

A team of researchers and technologists at Jacobs University designed and developed NEPTUNE Canada's benthic crawler, which will be used to study methane flux variations and gas hydrate dynamics at the Barkley Canyon hydrate outcrops.
