Saanich Inlet Symposium
11-12 February 2016
University of Victoria, Victoria, British Columbia, Canada

Please mark your calendars:

**When:** 11-12 February 2016  
**Where:** Bob Wright Centre, room B150, University of Victoria, Victoria, BC Canada

February 2016 will mark the first decade of continuous underwater measurements from the earliest VENUS observatory deployment in Patricia Bay, Saanich Inlet. To celebrate this occasion, Ocean Networks Canada invites your participation in a symposium on Saanich Inlet to be held at the Bob Wright Centre, University of Victoria, on 11-12 February 2016.

The purpose of the symposium is to highlight research accomplishments, discuss active research initiatives, and look forward to both potential research opportunities and oceanographic conditions in Saanich Inlet a decade from now. Contributions for posters and presentations in any area of Saanich Inlet research (not limited to VENUS-related study) are welcome.

Please fill out the sign-up form on the Symposium website by January 15, 2016 if you would like to attend. There are limited funds to support international travel, please contact us early if partial travel support is required.

Contact Akash Sastri ([asastri@uvic.ca](mailto:asastri@uvic.ca)) for further information.

Additional information is posted on the Symposium website:
